

Throughout the whole process I felt very encouraged and motivated by the recruiter. I was given very detailed information about the different job offers and James helped me understand what all of them consisted of. He answered all my questions promptly and in detail.

You were proactive in keeping in touch with me, and successfully matched me to the organisation and role that I was looking for. When discussing the job you showed a good knowledge of the sector you were placing me in as well as a reassuring respect for what I had done before and was looking to do next.

This was my best experience with a recruitment agency so far. Tom has managed to find a role which is a perfect match for my skill-set. His commitment and feedback throughout the entire process was second to none. The tips and documentation provided were fantastic and have surely produced results in the interview room.

I found Nicola to be very friendly and very straight talking. I have found a lot of recruiters in the past to waste a lot of time, however Nicola was very honest from the start and acted professionally at all times.
